# About us

## BILL AND CHERYL

We proudly run the Dragons Gate at Great Demesne Farm. The farm, situated on the border of Wales in England, has been in Bill's family for three generations, primarily functioning as a cattle farm. While we still maintain cattle, sheep, and grow crops like potatoes and maize, we expanded our offerings in 2020 to include glamping cabins and ventured into hosting weddings and events.

Our vision for Dragons Gate was to create a venue that encourages couples to infuse their personalities into their special day. We operate as a DIY venue but have a roster of trusted suppliers, as well as wedding planners and coordinators, to assist in making your dream celebration a reality.

GATE

# Planning your day

We believe your wedding should reflect you as a couple. The Dragons Gate is a blank canvas where you can choose your catering and other suppliers. We have a list of suppliers that is continuously growing, and we are always on hand to help.

## CEREMONIES

These can be arranged to take place either in the barn or in the grounds.

A celebrant lead ceremony is a special person you choose to conduct your wedding. They get to know you and ensure that your day, your union, your marriage is as personal as it can be.

The biggest practical difference is that a celebrant ceremony is not legally binding, which means that if the legal bit will need to be done in a registry

office at some point. If you choose to get married in a church or a registry office before you come to the venue for your reception that's fine by us too.

## CATERING

Once your venue is booked the next thing is most defiantly the catering. We have had everything from a 3 course roast beef dinner to food trucks, and sharing boards. By having control over your catering supplier you have the flexibility in budget and to tailor to your tastes. We can recommend suppliers, but we are always happy to speak to a new supplier.

THE  
DRAGON'S  
GATE

## BAR

We have some wonderful bar suppliers who can create packages for you. If you want a fully charged bar or some drink complimentary, or even an open bar we can make this work for you.

## ENTERTAINMENT

Discos and bands are both welcome, the cut off time is 12am.

The rest is elementary as they say! You can employ a creative friend to be in charge of decoration or engage a venue decorating team. Any extras like photo booths, entertainers, food stands, tents, its up to you to put the cherry on top.

On the day you will have a wedding co-ordinator to ensure all runs smoothly. Once you have confirmed you are welcome to come back for visits with your team for further planning.
